Subject: Draft Determination Memos for CASAC PM and Ozone Reviews
Attachments: Determination memo-Chartered CASAC Ozone.doc; Determination memo-Chartered CASAC PM.doc

Recently, when non-augmented standing committees undertook new activities, we have been producing determination memos for each activity (EEAC Value of mortality risk, DWC CCL) to document our determinations of whether those activities were particular matters, etc. These are similar to panel formation determination memos, but slightly modified. The same logic should apply to the Chartered CASAC as they undertake the PM and ozone reviews. I have drafted the following determination memos accordingly. So in addition to signing the 3110-48s, the DEO will also need to sign these determination memos.

-Aaron
